## Speech by Host Family

## Home

Ladies and Gentlemen how are you doing?

First off self introduce : I am ROTARY 3470 district area in Chiayi south zone, my code is "Home", I am glad to sharing my experience in my first hosting, even just one and a half month, but it is so touching me.

The first child was 17 age boy from USA, I dreamed that he could be friends with my boys, but it was just a dream...

We met a boy who was 185cm tall and weight 150kg in airport, he has no any cash, we were so nervous by no experience...

August, the hottest season of Taiwan, a testing for American, the date in Taiwan Temp. was 36°C, but 17~18°C in USA, but also the time differences and food habit were the reason to makes him give up and trying back home, after conversation with manager Betty, he stay with a will, and make us a chance for understanding...

School has begin after a week; school lives coming soon, pressures like heavily rains, never stop... And we all worry at him, we invited those students who also are exchanges students with Pizza party, and took him an outing; it looks peaceful but it just a while... A phone from school broken the night; in the phone... kid drop the liaison book and rail furiously on classmates, we all thought that because he still young and too much pressures on him, we been arranges all lessons, it just in the control...

But several days left, he playing mobile phone and i-Pad or just run away from school, teachers trying to stop and talked with concerned, it just make him more worst, he do not like the schedule of Chinese language lessons, we talked again with manager and reschedule again, we all hope that he will be fine, but things always not going well...

Just few days passed, manager ringing my phone, they says he start depression to everything, I better take him home, NOW! After home we start talk over and over again, we tried to make a conversation, but this time, he totally give up, he never back school, he want to go home...

We hug in airport and saying good bye...

To here, we all know it is a good experience for hosting, I believe there is a good ideas for that, but I still disorientation, please help me, thank you all...
