

## 鍾文慧

Wen-Hui Chung

鍾文慧簡介：

去年是一位得心應手的轟媽

今年同樣擔任轟媽卻無所適從

### 遙遠星球的孩子

我的女兒去年參加扶輪社青少年交換計畫到德國，所以去年我在家中接待來自德國韓國及巴西的三位交換學生，對於接待外國孩子我不是生手，有的是更多的熱忱與興趣，因此今年毫不猶豫答應社裡繼續接待一年，相關資料僅載明要接待的是一位15歲，聰明且喜歡打桌球的男孩子，不料迎接來的竟是一位來自遙遠星球的孩子。因為這孩子也參與本次年會，為避免引起不必要的困擾，本文僅列敘演講大綱：

- 一、孩子的異常行為。
- 二、本個案似患得亞斯柏格症狀(高功能自閉症)的情形：
  - (一)沒有同理心，社交行為能力的發展受到侷限；又有天真、不恰當的行為常常無法交到朋友。
  - (二)感官過度敏感。
  - (三)特殊興趣。
  - (四)堅持固定的例行生活程序。
- 三、接待家庭的困擾。  
處理方式。

Profile of Writer:

**An avid and confident host parent last year who is feeling quite inadequate as a host parent this year.**

My daughter went to Germany last year under the Youth Exchange Program of the Rotary Club; hence, last year our family was host to three exchange students, a German, a South Korean, and a Brazilian. I was not a new hand in entertaining foreign children. I had some experience and was quite enthusiastic about it; thus this year, I had no qualms in agreeing to be a host parent again for another year. The information I received was that I would be having a fifteen-year-old smart young man who loves to play table tennis into my home, but little did I know that I was extending my hospitality to a kid from a distant planet. Since this young person is also here with us in this convention, I would like to spare him embarrassment and simply present an outline of my speech.

1. Uncustomary behavior of the child.
2. The child demonstrated symptoms similar to those afflicted with Asperger Syndrome, a high function autism.
  - (1) Show absence of sympathy and limited social behavior and skill development; manifest naive and inappropriate behavior and thus, is often unable to make friends.
  - (2) Excessively sensitive.
  - (3) Possessed distinctive areas of interests.
  - (4) Insisted on a specific fixed routine way of life.
3. Problems encountered by the host family.
4. Solutions implemented.
